

# EMP 370/390

Ultra Rugged Portable Chassis

## Features

- 7 full length open slots
- Compatible with ATX and EATX motherboards
- Multiple open drive bay configurations
- Rugged aluminum alloy construction with shock absorbing rubber corners
- High brightness LCD guarded with anti-glare tempered glass
- Integrated with high output, auto sensing 650W power supply
- Optional waterproof keyboard

i7 Ready

Rugged aluminum alloy construction

Up to 7 slot expansion capability

Multiple open bays

Optional waterproof keyboard

## Introduction

The EMP series SKDs are robust lunchbox computer chassis built using heavy duty metal to provide tough, go-anywhere units ideally suitable for harsh environments and mission critical applications. Compatible with both ATX or Extended ATX boards, the 7 full length expansion slots of the EMP can be freely configured with other uniquely designed expansion cards for most applications. The LCD screen of the EMP is guarded with a specially treated anti-glare tempered glass for added protection.

Every EMP comes equipped with dual system cooling side fans and easy access to its expansion ports for immediate system upgrade or maintenance. EMP is designed to meet MIL-STD 810F and EMI requirements while maintaining full compatibility with the latest commercially available processors and components for the best cost-effective value. At Acme, our professionally trained engineers can handle modification for your special needs with an ease. Flexibility, value, and its extra-rugged construction to withstand bumps and impact blows help make the EMP series the most durable and efficient portable SKDs for your integration.

## Display

Diagonal	17", 4:3 (EMP370)	20", 4:3 (EMP390)
LCD Resolution	1280 x 1024	1600 x 1200
Brightness	280 nits	300 nits
Contrast Ratio	350:1	350:1
Backlight MTBF	50K Hours	50K Hours

## Compliance

Quality	ISO 9001
Approvals	CE, FCC, CCC, ROHS
Shock	15g
Vibration	1.25g @ 10-100Hz

## Specifications

Model	EMP 370	EMP 390
Slots	7	7
Digital Conversion Board	Built-in A/D conversion board DVI interface	Built-in A/D conversion board DVI interface
Active PFC Power	650W, 110/220V, 50/60Hz	650W, 110/220V, 50/60Hz
Drive Bays	2 x 5.25" 1 x 3.5" 1x Slim optical bay	1 x 5.25" 6 x 3.5" Removable kit 1 x Slim optical bay 1 x Slim FDD bay
Construction	Aluminum alloy / Steel	Aluminum alloy / Steel
Form Factor	ATX	ATX
Keyboard / mouse	105 keys with two button Touchpad	108 keys with two button Touchpad
Speaker	Built-In amplified speakers	Built-In amplified speakers
Carrying Case	Padded carrying case with wheels	Padded carrying case with wheels
Dimension / Weight	16.65"W x 13.58"H x 9.05"D / 30 LBs	20"W x 15.28"H x 9.84"D / 39 LBs
